<http://efile.txcourts.gov>.

NEW FILINGS: The Filer should insert the parties' names, addresses, court information and county in the EFSP software just as it is in the petition. It is important that your party names and addresses be as they are in the original suit so that it is not rejected automatically or at least can be matched to a case. All information typed into the system must be in ALL CAPS WITH NO PUNCTUATION. Do not add information for AKA, DBA, Trustee, etc in the fields for the party's name or the address fields. Do not use the attorney's address for any of the parties.

FILING INTO EXISTING CASES: The Filer must click on the County and District Clerk's Office and enter the cause number, to search for the existing case. The Pleading will be referred to as a subsequent filing. Depending on which EFSP is used, the Filer may receive a message that says "No Cases Found". The Filer should check and make sure that the cause number is correct, the county is correct and then proceed. There are some instances where cases are secured from the public which will prevent the case from being listed; if this happens please call our office when you are ready to file and the case will be unlocked temporarily.

You must submit a VS-165 Form (Information on Suit Affecting Family Relationship) for all new family cases EXCEPT adoptions. Prior to filing verify that your VS-165 form is current.

Each document submitted in an envelope must be a separate and complete document. Multiple documents cannot be submitted together as 1 PDF.
